STRIX ELITE 2

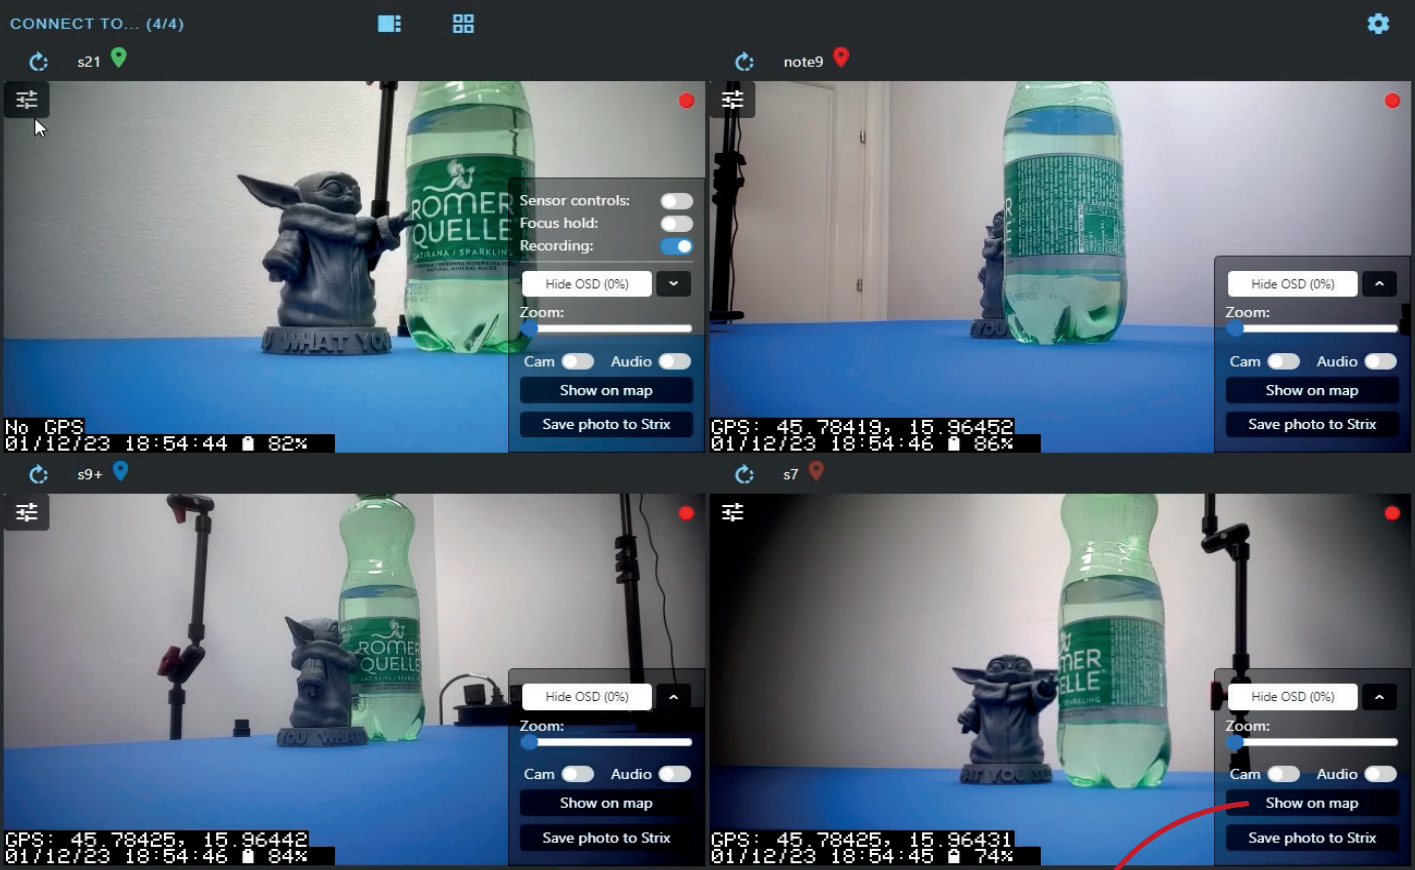

High definition WebRTC streaming solution

Strix Elite 2 is an on-prem solution for viewing and controlling multiple Strix phones from a single dashboard.

Schedule of live demos:

<https://strix.pro4sec.com/site/timetable>

Key features:

- Streaming over NATted networks! You just need a data connection. (Special SIM cards, VPNs, APNs, or similar are **NOT** required.)
- Low latency streaming
- Monitor the target from several different angles simultaneously.
- Create groups and assign viewing permissions
- Remote control multiple Strix phones (Zoom, Swap cameras, Audio stream, Hide OSD, etc.)
- Track the GPS location of the Strix phones on the map.

Software updates and license

- Lifetime free software updates
- Permanent software license

In 2023, you can meet us at the following expos:

- Security and Policing, UK, 14-16 March 2023
- OTIA, Canada, 5-6 June 2023
- PSE, Czech Republic, 12 April 2023
- ISS Trade Show, Brasil, 31 May - 1 June 2023
