

The National Technical Investigators'  
Association Presents  
**Basic Networking and IP  
Cameras**

**October 19-23, 2026**  
**San Antonio, Texas**

**Registration Opens: February 2026**  
**Registration Closes: September 4,**  
**2026 (or when sold out)**

NATIA's Certification Program invites members to attend a Specialized Certification hands-on workshop that will train students in proper component selection, implementation strategies, and configuration of an IP based surveillance system. These systems are easily deployable, easily monitored, and recorded remotely.

Students will be instructed in proper techniques necessary to select, configure, deploy, and troubleshoot an IP based camera system. Equipment discussions will include the latest technology, including IP cameras, routers, wired and RF based modems, servers, and server software solutions. Configuration, deployment, and troubleshooting will focus on the latest equipment and emerging technologies. Following the class, those skills can be easily used on other types of equipment, as the fundamentals of IP based networking are relatively consistent among all IP based devices.

Prior IP based networking experience is not required! However, basic computer skills will be an advantage. Students often progress at different rates depending on their prior experience. Traditionally, students and instructors have remained in contact after the class, helping each other in the "real world".

This course is a foundation level training that must be completed successfully for participation in any of NATIA's Advanced IP Courses. Basic Networking and IP Cameras is a Specialized Certification for all current NATIA Certified Technical Investigators (CTIs). If you are interested in taking the CTI exam while at this course and have this course qualify as a Specialized Certification, please email [training@natia.org](mailto:training@natia.org).

**Register via the NATIA member website today!**

### **Apply for Membership With NATIA**

Visit the [www.natia.org](http://www.natia.org) MEMBERSHIP page to submit your application for membership today. Applicants should allow two weeks for review and processing. Membership approval is not guaranteed.

NATIA is unable to rush approvals to accommodate course registration deadlines. Please plan ahead!

Association Presents  
**Basic Networking and IP  
Cameras**

**October 19-23, 2026 | San Antonio, Texas**

**LaQuinta by Wyndham San Antonio Riverwalk | 303 Blum St | San Antonio, TX 78205**

---

**Training Fee: \$3,750**

Fee includes 40 hours of class instruction, certificate of completion, and camera and cellular capable router to take back to their agency. Equipment is selected closer to the start of the course and is based on availability and the newest technology available. Fee does not include meals, transportation, or lodging, though a discounted hotel room block will be made available at the training venue in the months prior to the event.

Members must register themselves for this training. Substitutions will not be accepted without prior authorization due to safety, security, and equipment issues. If the agency would like to have another member attend in place of a registered student, they must contact [training@natia.org](mailto:training@natia.org).

---

**Attendee Requirements**

Students must bring a WINDOWS based laptop, version 10 or newer, with a hardwire Ethernet connection, with full administrative rights, and with functioning Ethernet and WiFi capabilities. Administrative rights **MUST** include the ability to bypass/disable VPNs (Cisco/Netmotion, etc.), anti-virus software, and firewalls. **NO TABLETS OR CHROMEBOOKS**. Students should also bring an active Cellular SIM card with a static public WAN IP address. No modem or hotspot required. Failure to meet this requirement will severely impact your ability to participate in this class. If you have any questions about the system requirements, please email [IP@natia.org](mailto:IP@natia.org).

---

**Important Deadlines & Instructions**

**September 4, 2026: Registration & Cancellation Deadline**

- Registration will close once capacity is met. Register early to ensure your seat!
- Cancellations must be received in writing to [training@natia.org](mailto:training@natia.org) by this date to avoid a late cancellation fee of \$500. If you do not receive a confirmation, your registration has not been canceled. It is the responsibility of the student to ensure the fee is paid in full.

**September 11, 2026: Payment Deadline**

- Checks must be made payable to NATIA and include the student(s) name(s) on the memo.
- DO NOT mail checks after the above deadline.
- Payment will not be accepted onsite and must be made in advance.
- Course fees must be paid in full, by deadlines in order for a student to be admitted.
- A secure direct payment URL will be provided in your registration confirmation email. This may be forwarded to agency payment personnel. Ensure you are opted IN to receiving emails from NATIA prior to registering.
- NATIA does not accept electronic payments or PO's in lieu of payment.
- Tax ID #54-1511063 | SAM/Unique Entity ID: CJL6LC8C3E19 | CAGE Code: 5YXQ7
